SKILLS

- Software Debugging
- Computer hardware, software and networking
- Ability to learn fast and conduct research through various methods.
- Planning and organizing
- Attention to detail
- Problem solving
- Interpersonal skills
- Team working and individual initiatives

TECHNOLOGIES

- C#, Python, Java, C++, Delphi
- HTML, CSS, Javascript
- ASP.Net & .Net Framework
- React
- Jira, Confluence, Draw.io
- Microsoft office

PROFILE

I am a highly ambitious and hardworking individual with a great interest for computer systems and the latest technologies. I have learned, through self study, the skills to needed enter the world of software. I have invested in myself by studying a BSc IT which I will be finishing in 2025 while working. I enjoy solving problems, exploring new technologies and have a passion for debugging and optimization. I find pleasure in team collaboration by helping others grow, while learning from them as well.

WORK EXPERIENCE

S-Cubed
NOVEMBER 2024 - PRESENT

Full Stack Software Developer

- Develop new solutions for SCubed and SCubed Recruitment software as well as other smaller projects.
- Technologies used includes ASP.Net, SQL, HTML, CSS, Javascript, React, Azure Blob Storage, Git, RedGate.
- Improve performance through optimization of data handling in SQL.
- Attend and engage in meetings.
- Collaborate with team members by discussing ideas presented by myself and other members to find and refine the best solutions for problems.
- Engage with ticket system completing tasks assigned, sending created solution through to testing team to be tested on UAT site.

J-LK Data Management / Quantim Legal Accounts
April 2023 - 2024
